MIRSAAT
MARKET ENTRY

CAPABILITY STATEMENT

Saudi market entry for foreign companies.

Licence, incorporation, registrations, people, sector permits — and the compliance calendar that keeps all of it valid.

Who we are

Mirsaat is the market-entry service of Rasmala Alduwaliya Company for Trading, a Saudi company registered in Riyadh since 2008. We take foreign companies from their first legalised document to an operating entity — and then keep that entity compliant for as long as it exists.

We work the route in the order it actually runs, and we clear the points where files stall before a file is opened, not after. Our fees are fixed per engagement; government fees are passed through at cost on a separate line.

REGISTRATION

LEGAL ENTITY	Rasmala Alduwaliya Company for Trading — شركة رسملة الدولية للتجارة
COMMERCIAL REGISTRATION	7002917743
VAT REGISTRATION	312692766700003
REGISTERED SINCE	2008
REGISTERED ADDRESS	Jarash, Al Yarmuk, Riyadh 13243, Kingdom of Saudi Arabia
INVOICING	Compliant Saudi tax invoice, VAT at 15%, issued by the registered entity above

Every number above can be checked on the public registers: Saudi Business Center (business.sa) and the Zakat, Tax and Customs Authority (zatca.gov.sa).

What we deliver

Four engagements with fixed scope and stated exclusions. Each can be taken alone; B and D are designed to run together, so the entity we incorporate stays compliant after handover.

A

Preparation

For companies still deciding.

- Document requirements by jurisdiction
- Pre-review before legalisation
- The full attestation chain
- Certified Arabic translation
- Activity and requirements memo

B

Company formation

Licence to operating entity.

- Investment licence (MISA)
- Articles, commercial register, unified number
- Tax registration (ZATCA), national address, chamber
- Employer file (Qiwa) and social insurance (GOSI)
- Bank account coordination
- Year-one renewals calendar

C

People

Because an entity with no one in it does nothing.

- Visa allocation
- Work and residence permits (Muqeem)
- Contracts on Qiwa
- Saudisation plan and monitoring (Nitaqat)
- Wage protection enrolment (Mudad)

D

Standing retainer

The compliance calendar, owned by us.

- Every renewal, on time
- Monthly operations on Qiwa, GOSI and Mudad
- Saudisation band watch
- Amendments as the business changes
- Monthly compliance report

PLATFORMS WE OPERATE ON

MISA	Ministry of Investment	**Qiwa**	Labour platform	**Muqeem**	Residency services for establishments
CR	Commercial register, Saudi Business Center	**GOSI**	Social insurance	**Absher Business**	Government portal access
ZATCA	Zakat, Tax and Customs Authority	**Nitaqat**	Saudisation programme	**Mudad**	Wage protection platform (WPS)

Where files stall — and what clears them

None of these are edge cases. Each is a checkpoint we clear before a file is opened, because clearing it afterwards costs weeks.

FRICTION 01 **Legalisation**	CLEARS Start the attestation chain before anything else; review every document against the receiving authority first.
FRICTION 02 **Activity code**	CLEARS Map activity codes against the target regulator before the articles are drafted.
FRICTION 03 **Funding**	CLEARS Characterise every transfer from the parent at the moment it is made — capital, capital increase, or documented shareholder loan.
FRICTION 04 **Saudisation**	CLEARS Build the first-year workforce plan during incorporation, and confirm early which roles one person may hold.
FRICTION 05 **Guarantee**	CLEARS Take the regulator's prescribed wording to the bank as a fixed instrument; never let the bank open its own template.

How we work

Readiness review first

A written assessment of activity codes, applicable regulator, Saudisation exposure and document burden — before you commit.

Fixed scope

Included, excluded and delivered are stated in writing. Government fees are passed through at cost.

One point of contact

You deal with the person who owns your file end to end.

No promised verdicts

We commit to professional execution and honest reporting. No adviser controls a regulator's timetable.

START A FILE

Tell us what you intend to sell in Saudi Arabia.

We come back in writing with the activity codes, the regulator, the Saudisation exposure and the document burden — before you commit to anything.
